

DocuSign CLM Acceleration Package

Stria gets work flowing. Fast.

Stria is a certified DocuSign Gold Partner

The company has a decade of CLM and eSignature implementation expertise. Stria is headquartered in California and supports DocuSign customers across the globe. Stria has a special focus on advanced CLM deployments that utilize workflow and automation to help organizations work more efficiently.

The Acceleration Package

The Acceleration Package begins with a conversation. Stria works with you to understand your present state processes and define your ideal future state processes. Stria will partner with you to design, build, test, refine and implement a DocuSign CLM solution that is in alignment with your organizational goals.

What's Included?

- Project Manager
- Master Solution Architect
- Project plan and system documentation
- DocuSign CLM set-up and configuration
